Reo502TM PLUS

Heavy Duty Epoxy Anchoring

**MULTI
DIRECTIONAL
APPLICATION**

Reo502TM PLUS, a pure epoxy formulation forming strong bonds to concrete.

Prequalification to AS 5216:2021 and NCC 2019; for use in cracked concrete and seismic applications. Reo502TM PLUS is designed for fast all weather dispensing, user friendly working times to maximise productivity. Reo502TM PLUS is for structural reinforcing bar connections & structural anchoring applications.

Reo 502TM PLUS Advantages

- Fast, Low Fatigue Dispensing.
- High Performance Pure Epoxy.
- Versatile Epoxy for:
 - Dry, Damp, Wet and Underwater
 - Carbide or Core Drilled*
 - Oversized Diameters* (up to 2.25 x Bar Diameter)

*Performance of cored & oversized holes was not included in the ETAG test program and therefore is based on testing conducted at Ramset Concrete Structures Laboratory.
