

# Roof Seal

## Construction Chemicals and Accessories

**Product Identifier** RFSLALG300, RFSLTRG300

### Product description

Roof Seal is a silicone sealant which is UV and weather resistant for exterior plumbing and roofing applications. Its neutral cure formula is non-corrosive, so it is safe to use with all metals including galvanised steel and anodised aluminium. It is also suitable for cement, brick, and concrete.

### Relevant building code clauses

F2 Hazardous building materials - F2.3.1

### Contributions to compliance

For F2 Hazardous building materials refer to the Roof Seal SDS (Safety Data Sheet) listed in supporting documentation.

### Scope of use

Roof Seal is a silicone sealant which is UV and weather resistant for exterior plumbing and roofing applications. Its neutral cure formula is non-corrosive so it is safe to use with all metals including galvanised steel and anodised aluminium. Also suitable for cement, brick and concrete.

### Features and benefits:

- UV and weather resistant - excellent resistance to accelerated aging and weathering to ASTM C792
- Excellent flexibility – joint movement  $\pm 25\%$ :
- Thixotropic - No sagging or running
- Suitable for contact with drinking water – AS4020-1994
- Non-corrosive neutral cure silicone
- Low VOC

### Conditions of use

Roof Seal should be applied by a skilled professional within the tolerances stated on the Ramset™ webpage in the supporting documentation.

**Supporting documentation** The following additional documentation supports the above statements:
